BT7853

HEAVY DUTY Ø50MM POLE

AV AWARDS 2017
MANUFACTURER OF THE YEAR
WINNER

Designed for large scale pole mounted installations; the BT7853 is a heavy duty alternative to standard Ø50mm poles. Made from 3.2mm thick steel capable of supporting heavier loads, poles are available in 2m or 3m lengths which can then be cut to an exact length if required. Safety bolt holes at the top and bottom of the pole are included for a secure installation. The BT7853 is internally unobstructed for cables to pass through easily and poles can also be fixed together to create even larger installs, using BT7824 External Pole Joiner.

SPECIFICATION

Steel thickness	3.2mm
Max Load	350kg
Lengths available	2m, 3m*
Colour	Black

*Poles can be cut to an exact length if required

FEATURES

- 3.2mm thick steel is capable of supporting heavy loads
- Poles can be cut to length if required
- Can be mounted from floors, ceilings or both for more mounting flexibility
