FLAT SCREEN WALL MOUNT WITH DOUBLE ARM

Designed to mount large sized screens, this ultra-slim wall mount with double arm features a tilting interface and three swivel points, allowing quick and easy repositioning of screens, whether folded flat to the wall or at maximum extension. Cable management is included to help make a neat and tidy mounting solution which is ideal for home installations as well as commercial applications.

SPECIFICATION

Recommended screen size	up to 60"
Max load	35kg
VESA® & non-VESA fixings	up to 600 x 400mm
Tilt	+ 10°/-2°
Swivel	180° (at wall)
Distance from wall	Min: 40mm - Max: 450mm

FEATURES

- Ultra-slim design allows close to the wall installation when folded flat
- Easy tilt and swivel adjustment
- Features three swivel points: 180° at wall, 360° at central pivot and 240° at interface
- Lateral adjustment of screen once mounted
- Single stud mounting for easy installation
- Levelling screws allow adjustment of screen height
- Integrated cable management
- Simple 'hook-on' installation with all mounting hardware included

Double arm for extended reach

Cable management clip included

3 pivot points for easy screen positioning

Ultra-slim design mounts screen only 40mm from wall when folded flat
