

► Features

- Flexible structure for system integration & connectivity
- Wide variation of compatible modules available
- Stores 4 units of CASY modules
- Slightly elevated and tilted angle for clear view
- Large access holes on rear side
- Pre-threaded mounting profile for easy assembly
- Aluminum extruded construction with plastic side covers
- Structured and scratch resistant black powder coating

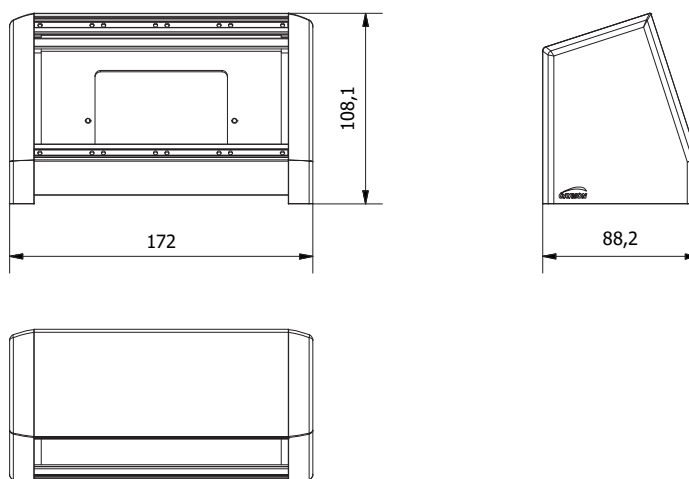

► Description

The CASY014 is a modular desktop chassis which can be fitted with 4 modules from the CASY range. The flexible and modular structure ensures a maximum versatility, allowing to adapt the system to each project's specific requirements. Possibilities are ranging from audio, video and data interconnection to power distribution, control panels, power supplies and many more.

The aluminum construction features pre-threaded hole inserts allowing module installation with a maximum of 4 units with a built-in depth up to 60 mm. It can be mounted on any table or desk, offering convenient connections in studio, broadcast or office environments. Cable entry is possible through large access holes on the rear or guiding through the side covers. The sides are constructed out of ABS material and modules can be fixed inside the unit using the included M3 screws. The overall construction is finished in a black (RAL9004) structured and scratch resistant powder coating.

► Technical Drawing

► Specifications

PROPERTY	VALUE
Module units	4 x front side
Width	172 mm
Height	108,1 mm
Depth	88,2 mm
Usable depth	60 mm
Weight	0.42 Kg
Construction	Alu extrusion with plastic side covers
In / output connection	Large access holes on rear side Guiding through side covers
Finishing	Structured powder coat
Colour	Black (RAL9004)

► Optional Accessories

ARTICLE	DESCRIPTION
CASYx0x	Blind / connector hole plates
CASYx2x	XLR connector plates
CASYx3x	Audio signal connector plates
CASYx4x	Loudspeaker connector plates
CASYx5x	Video connector plates
CASYx6x	Data connector plates
CASYx8x	Power connector plates
CASYx9x	Other plates
