

CASY101A

CASY 1 space closed aluminum blind plate

Product information:

The CASY101A aluminum, closed blind plate can cover one module space in a CASY chassis. This flexible structure for system integration & connectivity can easily be implemented in a wide variety of CASY chassis. The choice of aluminum for these blind plates have a couple of advantages compared to their steel counterparts. Aluminum is much lighter than steel only adds a little of extra weight to a CASY configuration. These blind plates are ideal to quickly modify and add custom cut-out hole due to its softer material.

Highlights:

- Structured and scratch resistant black powder coating
- Assembly screws included
- Compatible with any CASY chassis
- Flexible system for system integration & connectivity
