

CON-RJ45

K-LAN Crimp Style RJ-45 Connectors for
Category Cables

This shielded RJ-45 connector is designed to fit larger 23AWG cables, but also fits 24AWG cables. All shielded twisted pair cables (STP) cables require a shielded connector

CONFIGURATIONS

CON-RJ45-1	Crimp-style shielded RJ-45 connector for conductors in a 24AWG to 23AWG twisted pair cable, overall insulation diameter: 1.35mm (max.) - 10-pack
CON-RJ45-2	Crimp-style shielded RJ-45 connector for conductors in a 24AWG to 23AWG twisted pair cable, overall insulation diameter: 1.50mm (max.) - 10-pack
CON-RJ45-3	Crimp-style shielded RJ-45 connector for conductors in a 26AWG to 22AWG twisted pair cable with an overall insulation diameter of 1.40mm to 1.50mm - 10-pack. USE WITH: Recommended Kramer DGKAT/UNIKAT cables
CON-RJ45-5	Crimp-style shielded RJ-45 connector for conductors in a 26AWG to 23AWG twisted pair cable. Insulation dia: 0.65mm to 1.10mm - 10-pack. USE WITH: Recommended Kramer HDKAT cables
