2.4 Common Function

2.4.1 EPTZ

The camera supports EPTZ control, and 4x digital zoom. The EPTZ can be controlled via direction keys to adjust the image position. And the current image size can be adjusted via zoom button.

 Note: the Pan / Tile button can not work under the max FOV.

2.4.2 Auto Framing

This product has auto framing function. Press the corresponding key and the camera screen can be intelligently scaled according to the number of people in the meeting scene, and centralize all participants. Press again to turn off the automatic box.

 Note: the auto framing state will be ended by press PTZ buttons or Auto Framing button.

2.4.3 Speaker Tracking

The all-in-one supports Speaker Tracking function. Press the Speaker Tracking button to turn on / off the Speaker Tracking function. The all-in-one will give the person who is speaking a close-up view under the Speaker Tracking ON state.

2.4.4 Set/Call The Preset

Long press (2 seconds) the number buttons to set preset;

Short press the number buttons to CALL saved preset, and the camera will quickly go to saved preset position.

2.4.5 Menu Function

After entering the menu, select the menu options via direction keys. Press the HOME key to enter the options, adjust the options by using the pan button. Press the Menu key to return to previous menu until the exit menu.

2.4.6 USB And Bluetooth Switching Instructions

After the camera is connected to the USB cable and powered on, the default is USB mode. Long press the HOME key for 2 seconds, the sound source of the horn is switched to Bluetooth, and the word “BT” is displayed on the screen for 5 seconds. Bluetooth is visible and automatically connected to the device (pairing connection is required for the first time). In Bluetooth mode, long press the HOME key for 2 seconds, the Bluetooth is disconnected, the screen displays the word “USB” for 5 seconds, the sound source of the speaker is switched to USB, and the Bluetooth is invisible and cannot be connected.

2.4.7 Indicator

Action	Indicator Status
None	Blue
Mic Mute	Red
Adjust The Volume	Green, the range of light on varies with the volume

3. Installation

3.2 Installation

3.2.1. Bracket(Standard)

» If your TV doesn't have mounting bracket, please fix the mount bars with screw holes on the back of your TV.

» If your TV doesn't have mounting bracket, please fix the mount bars with screw holes on the mounting bracket.

3.2.2. Wall-mount

- » Referring to the aperture and position of the mounting hole, drill the corresponding hole at the mounting place and fix the bracket in the mounting place with screws.
- » Insert the camera base into the groove of the bracket. To ensure the safety of the camera, make sure the camera is firmly attached to the bracket before you let it go.

3.3 Connection

Bluetooth Connection:

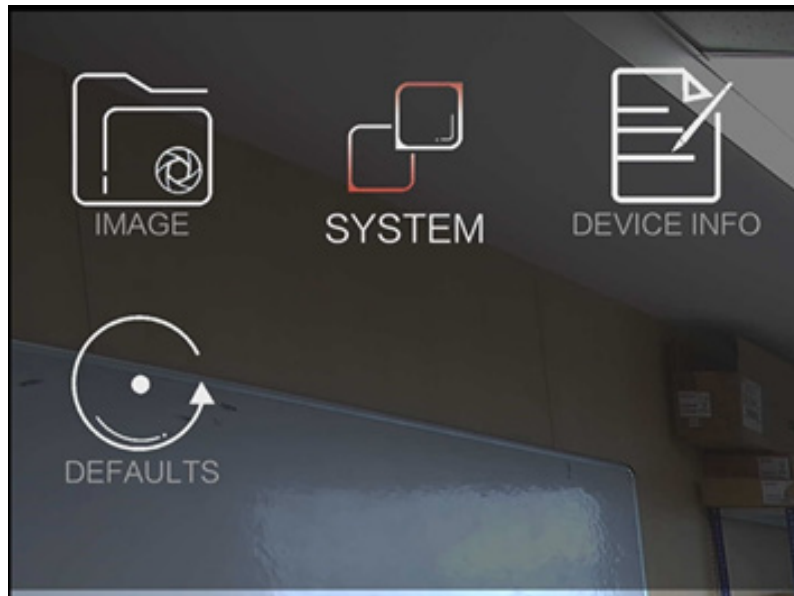

3.4 Bluetooth connectivity

Open camera application in the laptop and select media bar camera to see OSD menu of the media bar.

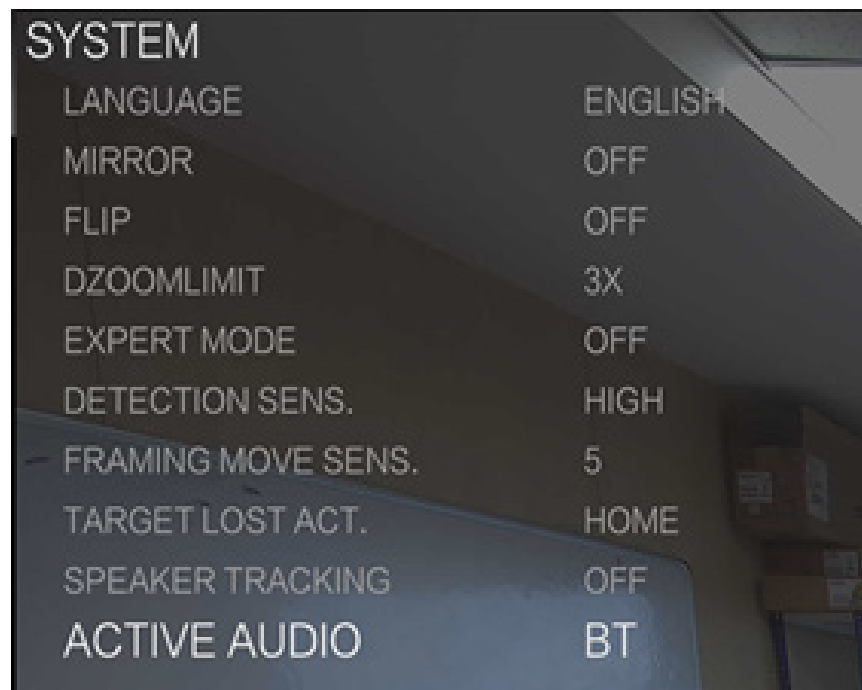

Step 1

Press menu in the given media bar remote and navigate to system menu for options.

Step 2

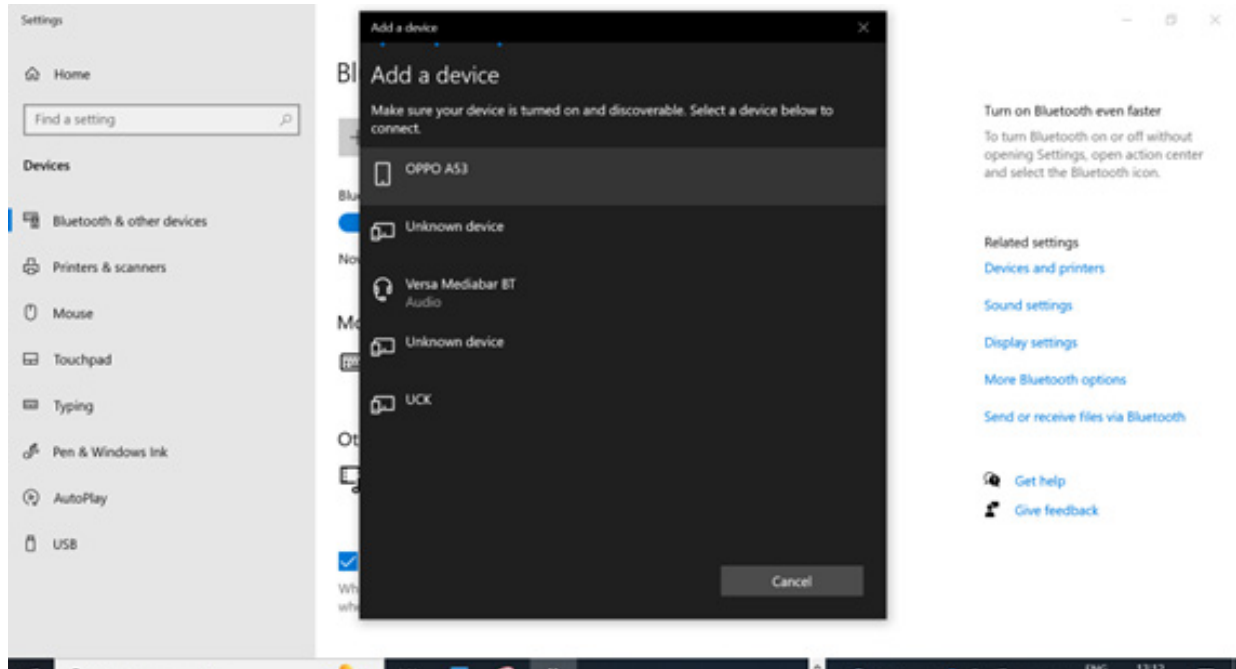

In the system menu options, please change the ACTIVE AUDIO from USB to BT

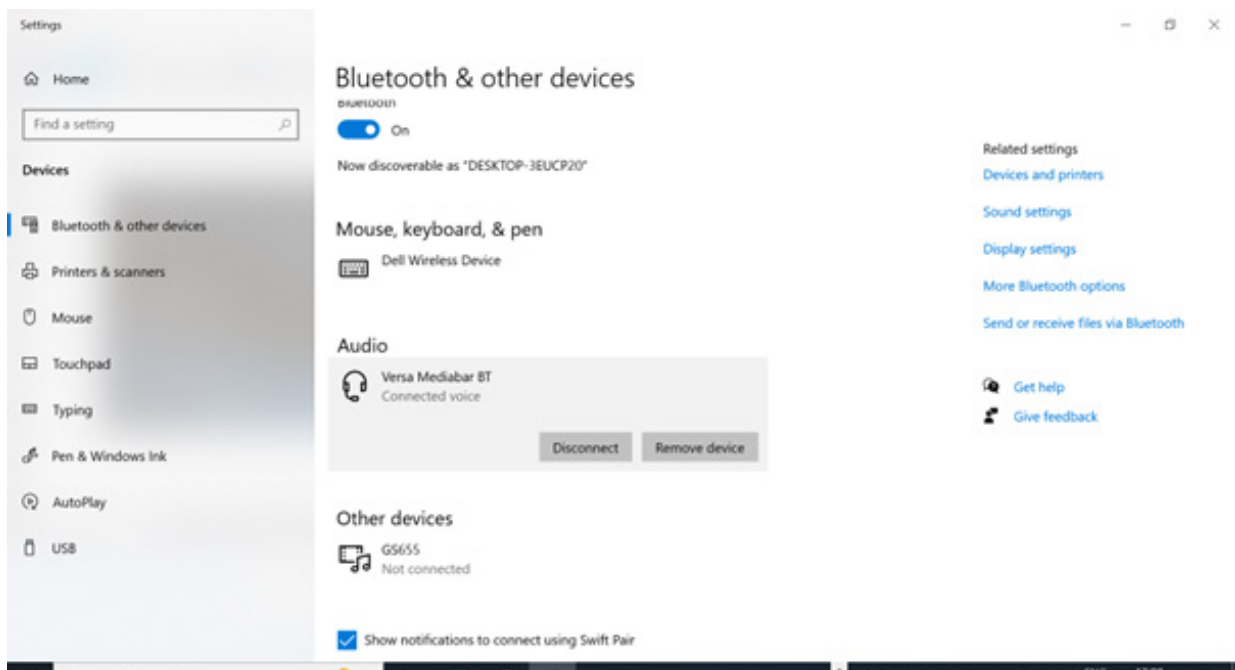

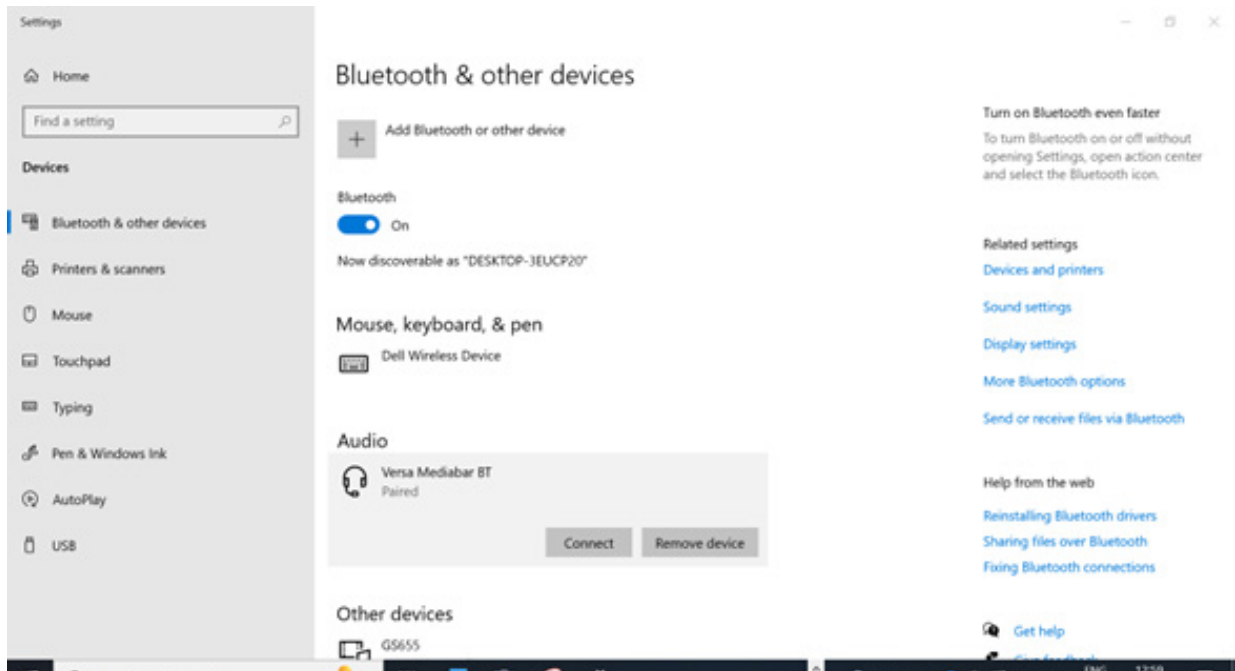

Step 3

Add Bluetooth or other device to pair versa media bar with laptop for first time, once paired you connect with versa media bar by clicking “connect”

Disconnect USB cable from versa media bar to laptop and enable Bluetooth in the laptop and select versa media bar BT from search results.

Step 4

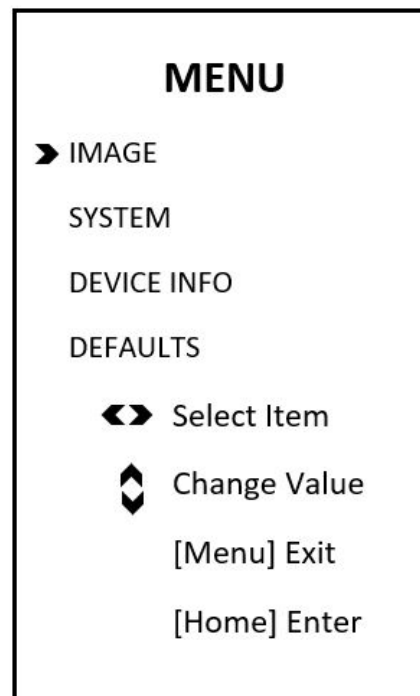

Now the laptop audio is connected to media bar speaker and microphone system.
