- Stable black cast-iron round base

► Description

CST210/B is a straight microphone stand with a round cast-iron base of 250 mm diameter. A boom arm with a length of 800 mm is included. The stand has anti-vibration rubber around its base for noise filtration. The height of the microphone stand can be adjusted between 835 and 1540 mm using a plastic clutch style system. Included with the stand are a 5/8" to 3/8" thread reduction and a cable fixation clip.
