

ADVANCED INTEGRATION

We now offer an unrivalled range of 5Play™ HDBaseT™ transmitters and receivers that include advanced integration features. By adding additional audio, video scaling and output features to our PU-507 products, we have created a range of solutions that can significantly save time, space and importantly the cost of any advanced HDBaseT™ installation.

OFFERING YOU INDUSTRY LEADING OPTIONS FOR ADVANCED 5Play™ HDBaseT™ INTEGRATION

PU-507 5Play™ TRANSMITTERS

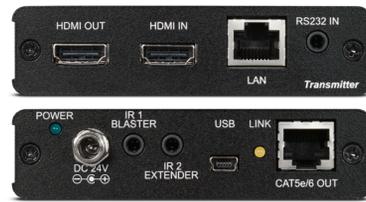

PU-507TX
5Play™ HDBaseT™ Transmitter

- Transmit uncompressed HDMI, RS-232, 2 Way IR, Ethernet and PoE (100m)
- Supports all v1.4 HDMI resolutions plus 4k.

PU-507TX-1H
5Play™ HDBaseT™ Transmitter with additional HDMI bypass

- Transmit uncompressed HDMI, RS-232, 2 Way IR, Ethernet and PoE (100m)
- Includes additional HDMI bypass output for local display

PU-507TX-CVGA
5Play™ HDBaseT™ Transmitter with switchable VGA and composite inputs

- Transmit switchable VGA or Composite Video (plus audio), RS-232, 2 Way IR, Ethernet and PoE (100m)
- Perfect for integrating CCTV or PC sources into any HDBaseT™ system

PU-507TX-HDVGA
5Play™ HDBaseT™ Transmitter with switchable HDMI and VGA inputs

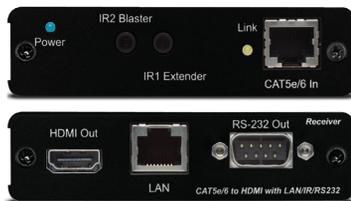

- Transmit switchable HDMI or VGA (plus audio), RS-232, 2 Way IR, Ethernet and PoE (100m)
- Scaling function, perfect for integrating multiple signal formats into any HDBaseT™ system

PU-507 5Play™ RECEIVERS

PU-507RX
5Play™ HDBaseT™ Receiver

- Distributes uncompressed HDMI, RS-232, 2 Way IR, Ethernet and PoE
- Transmit up to lengths of 100m
- Full 5Play™ convergence

PU-507WPRX
5Play™ HDBaseT™ Wall Plate Receiver

- Distributes uncompressed HDMI, RS-232, 2 Way IR, Ethernet and PoE (100m)
- Wall plate design for seamless integration

PU-507RX-SCD
5Play™ HDBaseT™ Receiver with integrated video scaling and audio breakout

- Advanced HDBaseT™ receiver with integrated video scaling and audio breakout
- Perfect single box solution for integrating multiple displays with different resolution outputs

PU-507RX-2H
5Play™ HDBaseT™ Receiver with additional HDMI output

- Distributes uncompressed HDMI, RS-232, 2 Way IR, Ethernet and PoE (100m)
- Includes simultaneous HDMI output for additional local displays or further signal distribution

PU-514 TRANSMITTERS & RECEIVERS

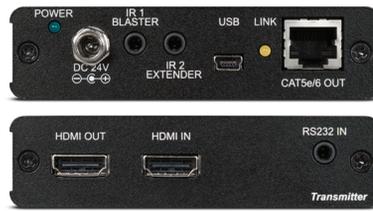

PU-514L-TX
HDBaseT™ LITE Transmitter

- Distributes uncompressed HDMI and 2 Way IR
- Transmit up to lengths of 60m
- Compact design for discreet application

PU-514LTX-1H
HDBaseT™ LITE Transmitter with additional HDMI bypass output

- Transmit uncompressed HDMI and 2 Way IR (60m)
- Includes additional HDMI bypass output for local display

PU-514L-RX
HDBaseT™ LITE Receiver

- Distributes uncompressed HDMI and 2 Way IR
- Transmit up to lengths of 60m
- Compact design for discreet application

PU-514L-WPRX
HDBaseT™ LITE Wall Plate Receiver

- Distributes uncompressed HDMI and 2 Way IR (60m)
- Wall plate design for seamless integration

SPECIALIST AV DISTRIBUTION SOLUTIONS WITH HDBaseT™ INTEGRATION

EL-5500-HBT

- Comprehensive multi format presentation switch
- Including HDBaseT™ input and output for advanced integration

- Seamless switching and resolution scaling for the user
- Advanced audio breakout functionality

AU-A300-HBT
HDBaseT™ 2-channel digital AV receiver

- 30W per channel digital stereo amplifier
- IP control and RS-232 drivers available
- Integrated HDMI and HDBaseT™ for advanced switching and remote application
