

The PROJECTOR LIFT SI-H L 40 HC is studied in order to support large and heavy Professional and Home Cinema video projectors up to 30 Kg. of weight. The lift has been developed to be installed inside very narrow false ceilings of only 14 cm. granting the best architectural solution in hiding projector, lift and cables.

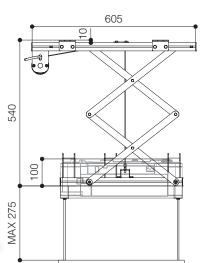

The SI-H L 40 HC is supplied with a powerful and extremely silent motor that allows a descent from a minimum of 14 cm to a maximum extent of 54 cm. Moreover it is supplied with extendable side brackets in order to allow an easy fixing of the panel of your false ceiling by adjustable threaded bars. The lift SI-H L 40 HC is equipped with safety **screws** which prevent the lift to extent further to the preset end stop.

* Ceiling cover plate is NOT included

Frontal view closed 760 680 MAX 275 510 741

Side view closed

Side view open

Maximum size projector anchoring points

*With lift in closed position minimum height required in false ceiling:

-> Projector height + 4 cm.

(In any case, minimum height required in the false ceiling: 14 cm.)

Optionals:

- Kit RF remote control with external receiver (details p. 62)
- Interface switch 12 volt (details p. 63)
- Low voltage contact interface (details p. 62)
